Our expanding RHD fleet supports all space missions

Aeroflex Plainview’s RadHard-by-Design (RHD) Series — produced specifically for spacecraft designers working on LEO, MEO, GEO, and Deep Space missions — now has 20 products!

Engineered for Deep Space yet priced for all orbits, the RHD Series provides analog function building blocks to support rapid development of HiRel space application circuits. More RHD op amps, MUXs, comparators, A-to-D and D-to-A converters offer:
- CMOS ELDRS immune
- > 1 Mrad(Si)
- Very low power
- 3.3-5.0V supply voltage
- Full Mil Temp range
